### Georgia College and State University selects RevenueVision®

**Orlando, FL – August 27, 2012 — The Solution Design Group, Inc. (SDG)**, is pleased to announce that **Georgia College & State University** has selected SDG's RevenueVision® solution for contract and revenue management of auxiliary services.

"We are very pleased to add Georgia College to our growing list of RevenueVision® subscribers. Georgia College, like many other colleges and universities, is continuing to look for ways to maximize revenues and streamline business processes. RevenueVision® will be a key component in helping the auxiliary services staff reach those objectives," stated SDG President and CEO, Tom Strange.

"I am excited to have such a great tool to help us stay on top of all the provisions of our business contracts. The "alerts" feature alone, reminding us of important actions to be taken, will increase our efficiency and provide us with greater assurance that we're not missing key aspects of our agreements," said Kyle Cullars, Interim Vice President for Administration and Operations. "Implementation has been simple, training has been excellent, and the solution itself is very easy to use."

RevenueVision® is a web based "software as a service" solution that has been designed and developed specifically for the higher education community to optimize the management of auxiliary enterprise relationships. It allows colleges and universities to pro-actively track revenues and expenses from each contract or self-operated facility in such a manner that allows them to maximize revenues. RevenueVision® is available on a monthly or annual subscription basis directly from SDG. Subscriptions include all hardware and software located in SSAE-16 certified data centers, unlimited telephone support, all upgrades and patches, and all system administration services. Subscribers only need a browser and a connection to the Internet for access.

**About The Solution Design Group, Inc. (SDG)** - SDG is a software development and information technology consulting firm that focuses on serving the public sector and higher education communities. The principals of SDG have over 75 years of collective experience serving public sector and higher education customers and have provided software or services for nearly 100 different clients around the world.
