### North Carolina A&T State University selects RevenueVision®

**Orlando, FL – February 20, 2013** — **The Solution Design Group, Inc. (SDG)**, is pleased to announce that **North Carolina Agricultural and Technical State University** has selected SDG's RevenueVision® solution for contract and revenue management of auxiliary services.

"North Carolina A&T is recognized as a leader in many areas including having the number one ranking for the number of engineering degrees awarded to African Americans and is home to the National Science Foundation Engineering Research Center. We are honored that RevenueVision® has been selected to help meet the business goals and objectives related to auxiliary enterprises." stated SDG President and CEO, Tom Strange.

"RevenueVision® has propelled our contractual management process to an entirely new level. It is an exceptional software program that is very user friendly. This new software will become a critical tool in reaching new heights in effective contract management. Along with the remarkable software, the consultant exhibited an enthusiastic commitment and made the two-day training most enjoyable," stated Angela Peterson, NC A&T's Director of Auxiliary Enterprises.

RevenueVision® is a web based "software as a service" solution that has been designed and developed specifically for the higher education community to optimize the management of auxiliary enterprise relationships. It allows colleges and universities to pro-actively track revenues and expenses from each contract or self-operated facility in such a manner that allows them to maximize revenues. RevenueVision® is available on a monthly or annual subscription basis directly from SDG. Subscriptions include all hardware and software located in SSAE-16 certified data centers, unlimited telephone support, all upgrades and patches, and all system administration services. Subscribers only need a browser and a connection to the Internet for access.

**About The Solution Design Group, Inc. (SDG)** - SDG is a software development and information technology consulting firm that focuses on serving the public sector and higher education communities. The principals of SDG have over 75 years of collective experience serving public sector and higher education customers and have provided software or services for nearly 100 different clients around the world.
