RevenueVision® Selected at State College of Florida

Orlando, FL – November 14th, 2014 -- The Solution Design Group, Inc. (SDG), is pleased to announce that the **State College of Florida, Manatee-Sarasota** has selected SDG's RevenueVision® solution for contract and revenue management.

"State College of Florida is the first predominately two-year college to become a RevenueVision subscriber further illustrating our commitment to provide the best revenue and contract management solution for all of higher education regardless of the type or size of institution. The RevenueVision family of subscribers now includes two and four year schools, public and private schools, with enrollments that range from 3,000 to 60,000 students," stated Tom Strange, SDG President & CEO.

SCF will use RevenueVision® to manage all of its contracts across all departments with the initial focus being in their Business Services Division which began using RevenueVision® in early November.

Josef Rill, SCF Director of Business Services stated "Our goal was to find a comprehensive contract management software for our college, RevenueVision® combined that service with the ability to track revenues and expenses without the need for additional software. For SCF, we get the best of both worlds for the price of one application."

About RevenueVision®

RevenueVision® is a web based "software as a service" solution that has been designed and developed specifically for the higher education community to optimize the management of auxiliary enterprise relationships. It allows colleges and universities to pro-actively track sales, revenues and expenses from each contract or self-operated facility in such a manner that allows them to maximize revenues. RevenueVision® is available on a monthly or annual subscription basis directly from SDG. Subscriptions include all hardware and software located in SSAE-16 certified data centers, unlimited telephone support, all upgrades and patches, and all system administration services. Subscribers only need a browser and a connection to the Internet for access.
